* Quoted using a dual processor server. Other limitations may apply, contact Zirous for details.

Grid Control Quick Start **Database Package**

IT systems in today's enterprises are becoming more complex and are harder to monitor and administer each passing year. As systems become more complex and encounter heavier loads, IT professionals are under even greater pressure to ensure system availability. Are you tasked with:

- *Knowing about problems with your databases before your customers?*
- *Optimizing the performance of your databases?*
- *Attending to compliance requirements (SOX, HIPAA, GLBA), service level agreements, or preventing your next system outage?*

Put your mind at ease by implementing Oracle's best-of-breed Enterprise Manager software. Zirous has lowered your entry point into EM through our Grid Control Quick Start: Database Package.

Included **Target Project Definition**

- Discovery sessions to define a high value target database

Implementation Plan

- Joint creation of an implementation plan, outlining milestones and essential personnel
